

Liberia Launches U.S. Vice Presidents Set

On February 2 Liberia began a U.S. Vice Presidents series with a set of three souvenir sheets. As these sheets cover the 'Veeps' from John Adams (1789-1797) through Daniel Tompkins (1817-1825), we can expect additional sheets that will take us up to date—and as Liberia has no ban on issuing stamps for living people, eventually that should take us right up to Vice President Michael Pence.

Shown here, there are two Vice Presidents to a sheet, with each one

depicted in two alternating horizontal strips of three stamps each. The left and right stamps depict the President as well as the Vice President. For Flag Staamps collectors there is the added appeal of the left stamps showing the then-current flag. The center stamp depicts the honoree with an event in that individuals life.

For details on these and future Liberia U.S. Vice Presidents issues, please go to the IGPC website, www.igpc.com.
