

SCARCE TAIWAN SPECIMENS LOT

Official Specimen stamps from Taiwan are prepared in limited quantities and, as a result, sell for substantial premiums over the issued stamps. We see sales and offers on eBay for prices from \$5 to more than \$100, depending on the set.

We have accumulated a lot of more than 70 sets (no duplicates) encompassing more than 300 stamps from 2007 to date, **including many popular Topicals**. Uncounted are some definitive postal stationery pieces. Almost all are accompanied by the promotional folders for the issue.

For specialists or for someone with the time to break this lot down for resale, it's a below-market bargain at ~~\$299~~.

*Reduced to Sell NOW!
\$199*
